

Prime Potato Puree (PPP)

Product Description

Prime Potato Puree contains slivers of potato peel and peeled potato together with some of the contents of potato cells released during the chipping and various other processes at potato chip factories. It is suitable for feeding to pigs and cattle.

Technical Specification

Dry matter	16,0 %	Chloride	0,18 %
DEpig	14,00 MJ	Copper	11,8 mg
NEpig	10,10 MJ	Zinc	49,4 mg
Crude protein	16,0 %	Manganese	40,0 mg
NDF	19,3 %	Lysine	1,04 %
Oil (total)	4,0 %	Methionine	0,30 %
Starch	45,0 %	Methionine + Cystine	0,46 %
Sugar	2,0 %	Threonine	0,64 %
Ash	9,0 %	Tryptophan	0,23 %
Magnesium	0,12 %	Digestible Lysine	0,61 %
Calcium	0,57 %	Digestible Methionine	0,18 %
Phosphorus	0,32 %	Digestible Meth. + Cyst.	0,24 %
Potassium	1,34 %	Digestible Threonine	0,32 %
Sodium	0,14 %	Digestible Tryptophan	0,09 %

Features & Benefits

Prime Potato Puree is a cooked potato co-product suitable for feeding to pigs of most ages. It has good digestibility and starch content and is very palatable. Prime Potato Puree has good mixing and handling properties for liquid pig feeding systems and has all year availability from several factories in the UK.

Feed Advice

Pigs - Up to 15% of the total diet

Cattle - Up to 20 kgs/head/day

Delivery

Prime Potato Puree is delivered in 28T bulk pressurised tankers

Handling and storage

Potato Cream is best stored in vertical tanks designed to hold and dispatch bulk liquid feeds. For Liquid feeding systems a positive displacement pump is recommended for handling the product

Assurance Status

Prime Potato Puree is an assured feed that is included in the FEMAS Certification for which the supplying factories are certified.

Duynie Ltd is approved against the requirements of the Universal Feed Assurance Scheme (UFAS) accreditation for the merchandising of compound feed and assured feed materials, including third party haulage.

All Duynie's co-product feeds are obtained from factories that select and process only food quality raw materials. No claim is made that the raw materials are GM-free and the feeds should not be used by organic livestock farmers.
