### Features & Benefits

Trafford Syrup is a very palatable high energy protein liquid feed. It has good digestibility and contains high levels of yeast fragments. Trafford syrup has good mixing and handling properties for cattle feeding systems. It has all year availability predominantly in the North West of England & North Wales.

### Feed Advice

Cattle	Up to 10 kgs/head/day
--------	-----------------------

### Delivery

Trafford Syrup is delivered in 28T bulk pressurised tankers.

### Handling and storage

Trafford Syrup is best stored in vertical tanks designed to hold and dispatch bulk liquid feeds.

### Assurance Status

Trafford Syrup is an assured feed that is included in the FEMAS Certification for which the supplying distillery is certified.

Duynie Ltd is approved against the requirements of the Universal Feed Assurance Scheme (UFAS) accreditation for the merchandising of compound feed and assured feed materials, including third party haulage.

All Duynie's co-product feeds are obtained from factories that select and process only food quality raw materials. No claim is made that the raw materials are GM-free and the feeds should not be used by organic livestock farmers.
